ABOUT EDVOY

Edvoy is an innovative education platform for international studies.

Created by education consultants IEC Abroad, Edvoy uses artificial intelligence and machine learning to simplify the application process by allowing students to apply to multiple universities in the UK, Canada, the US and Ireland, in one place.

STEP 1

PROMOTION OF THE WEBSITE/SERVICE ACROSS OUR NETWORK OF INFLUENCERS

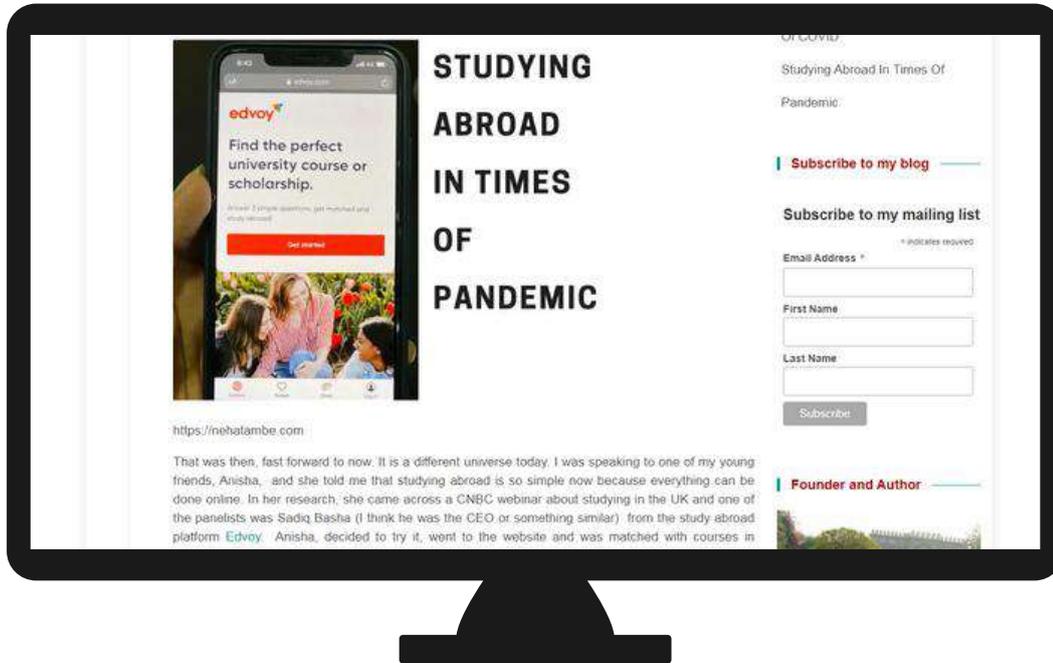

Edvoy came to us for the promotion of their website and service. They wanted the influencer(s) to create promotional matter including Instagram stories, blog, social media posts, etc. talking about the positives of the platform and upload the same on their Instagram/Facebook/ blog sites.

We selected a network of influencers based on education & lifestyle with a strong presence on Instagram. We also selected a network of influencers with their personal blog sites having high DA values.

Once everything was finalized, we proceeded to the next step.

STEP 2

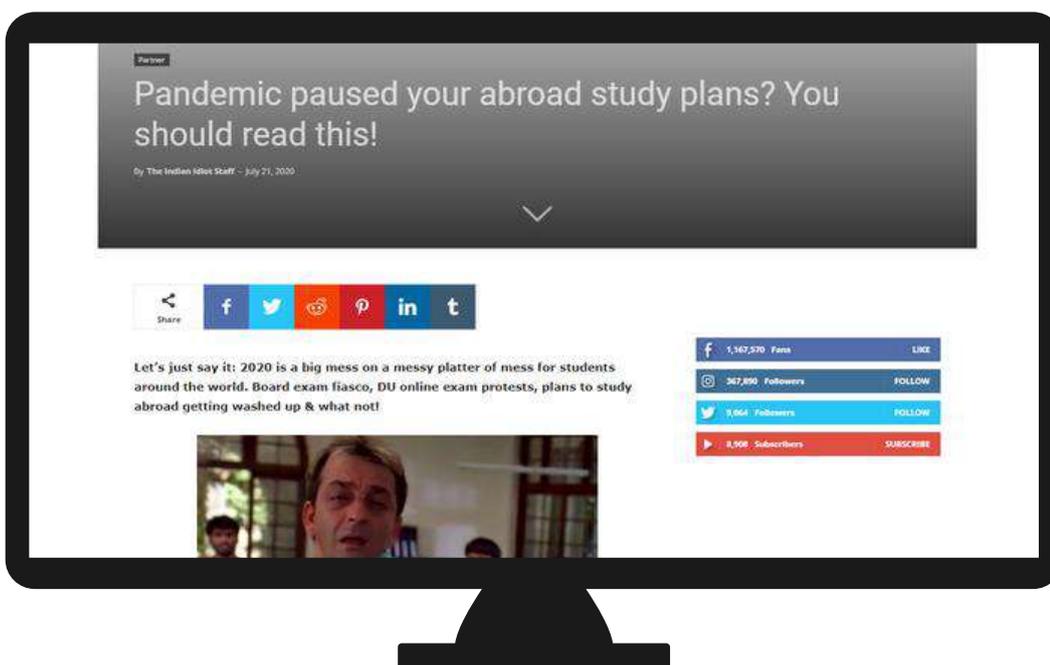

BLOG PROMOTION

The influencer creates an interactive blog post on Edvoy describing their service, the website and other related features in the form of a story from the point of view of a student. The influencer **links to Edvoy** and uploads the post on his/her blog.

Here's a sample blog link for your reference:

STEP 3

For example,
One influencer who was selected for this role (example is purely used for the sake of our case study) had a follower count of **28,000** on Instagram.
