# STEP 1

## PROMOTION OF THE WEBSITE/SERVICE ACROSS OUR NETWORK OF INFLUENCERS

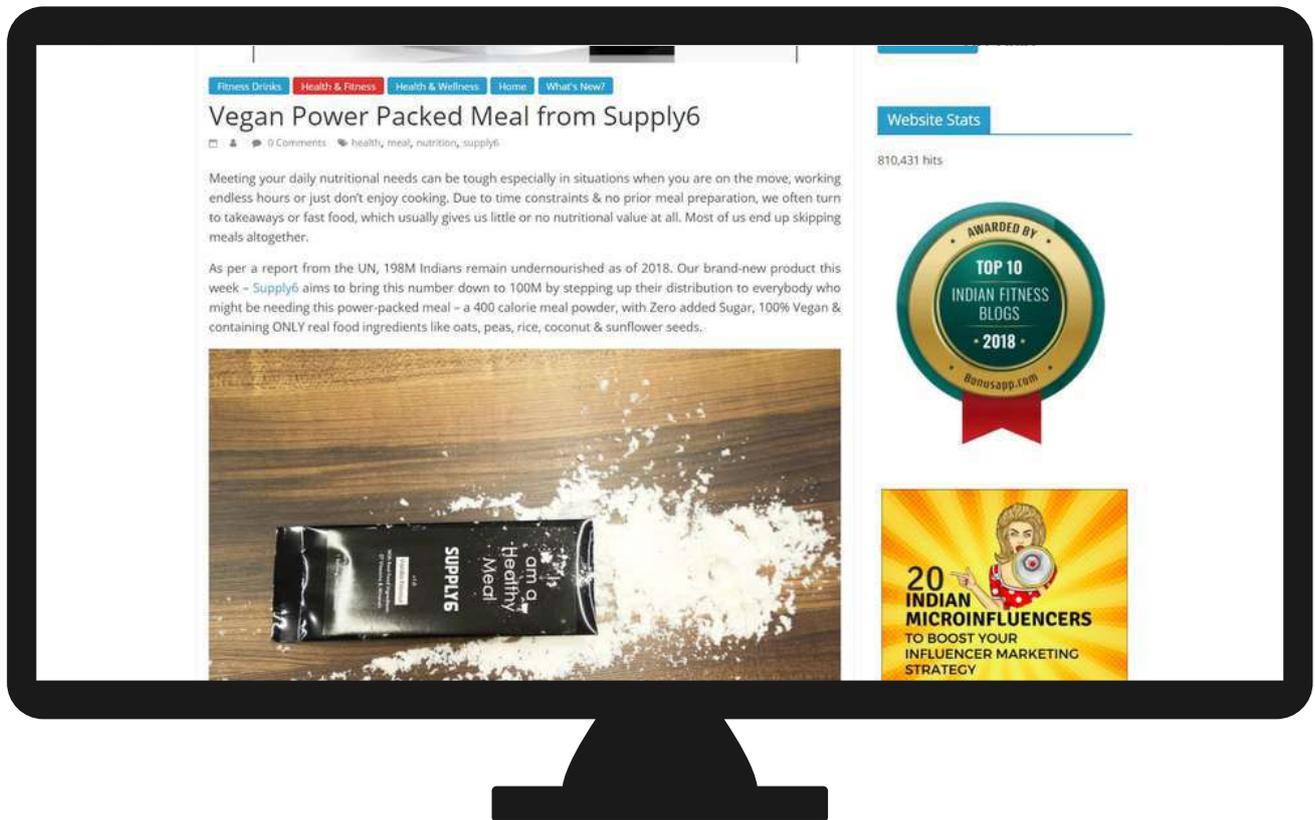

Supply6 came to us for the promotion of their website and their nutritional drink. They wanted the influencer(s) to create promotional matter including Instagram stories, posts, blogs, posts, etc. talking about the positives of their product and upload them on their Instagram/ blog sites.

We selected a network of influencers based on fitness and lifestyle with a strong presence on Instagram. We also selected a network of influencers with their personal blog sites having high DA values.

Once everything was finalized, we proceeded to the next step.

# STEP 2

## BLOG PROMOTION

The influencer creates an interactive blog post on Edvoy describing their service, the website and other related features in the form of a story from the point of view of a student. The influencer **links to Edvoy** and uploads the post on his/her blog.

Here's a sample blog link for your reference:

# STEP 3

## INSTAGRAM STATIC POSTS

---

Our selected influencers created a static Instagram post and an explainer video on Instagram reviewing the details of the website to their huge network of followers.

For example,

One influencer who was selected for this role (example is purely used for the sake of our case study) had a follower count of **28,000** on Instagram.
